CLASS RANKING

Boerne ISD is a non-ranking school district. Students are given a numerical ranking only when they are notified if they qualify for automatic admission to a Texas public university or college. Class grade averages are calculated at the end of each semester. BISD assigns weights to semester grades earned in eligible courses and calculates a weighted numerical grade average, in accordance with the following:

Advanced Courses = Multiplied by 1.1 On-Level Courses = Multiplied by 1.0

Adjusted grades are used in computing GPA and class rank, but numerical grades on the transcript do not reflect added points. GPA is calculated on a 100% scale and provided as a weighted average only.

GRADING

All grades are recorded numerically. Transfer grades are recorded using the numerical equivalent on the grade scale of the sending school.

Otherwise, grades are translated as follows:

A 90-100 B 80-90 C 70-79 F Below 70
