Boerne ISD
Professional Learning Plan
2023-2024
2023-2024

Superintendent of Schools
Kristin Craft, Ed.D.

Boerne ISD Senior Leadership
John O’Hare, Ed.D. – Chief Administrative Officer
Larissa Flores – Chief Instructional Officer
Elaine Howard, Ed.D. – Chief Human Resources Officer
Wesley Scott – Chief Financial Officer
Sean Babcock – Chief Technology Officer
Henry Acosta – Chief Operations Officer
Rick Goodrich – Chief of Safety and Security

Boerne ISD Cabinet
Bryan Benway – Director of Communications
Stan Leech – Athletic Director
Anne Seiter – Director of Special Education
Krista Pomeroy – Executive Director for Whole Child Services
Mark Stahl – Executive Director of Operations
Yvette Reyna – Executive Director of the Boerne Education Foundation and Boerne
ISD Community Partnerships

Board of Trustees
Carlin Friar – President
Garrett Wilson – Vice-President
Joe Tidwell – Secretary
Jessica Davila – Member
Maritza Gonzalez Cooper – Member
Kristi Schmidt – Member
VISION
Our community will engage students and adults in a challenging educational environment that inspires creativity and enriches lives for today's realities and tomorrow's possibilities.

MISSION
The Boerne Independent School District engages, inspires, and enriches our community through innovative learning experiences.

DISTRICT BELIEFS
We believe:
- All students have talents and gifts and deserve the highest quality education;
- All students should have opportunities to achieve high levels of success;
- Children matter to the community and should experience a sense of belonging;
- Children grow best with family and community nurturing;
- All students must be post-high school ready to enter the workforce and/or higher education;
- In educating the whole child by addressing not only academics but social/emotional needs;
- Education is a partnership involving students, families, community, and the district;
- In fostering an atmosphere of open communication;
- In a culture of collaboration and respect of all stakeholders;
- In the importance of community partnerships;
- Our staff is student-centered and dedicated to excellence;
- Continuous learning of staff is essential to student success;
- In attracting and retaining the highest quality staff;
- In being good stewards of the taxpayers' dollars; and
- In providing safe and secure schools for students and staff

Introduction

This document contains the Boerne Independent School District (BISD) Professional Learning Plan and includes information about BISD core philosophies, the definition of professional learning, and the rationale for all employees to be lifelong learners.

Board Policy for Staff Development: DMA (LEGAL)

The staff development provided by a district to an educator other than a principal must be conducted in accordance with standards developed by the district and designed to improve education in the district (DMA (LEGAL)).

A board shall annually review the State Board of Educator Certification continuing education and training clearinghouse published under Education Code 21.4514 and adopt a professional development policy that must:

1. Be guided by the recommendations for training in the clearinghouse;
2. Note any differences in the policy adopted by the district or school from the recommendations in the clearinghouse; and
3. Include a schedule of all training required for educators or other school personnel at the district or school.

To the extent of any conflict, a frequency requirement for the completion of training provided by statute prevails over a frequency requirement for that training included in the professional development policy. Education Code 21.4515(a), (b)

Requirements for Training

In designing staff development for educators other than principals, a district must use procedures that, to the greatest extent possible, ensure the training included in the staff development:

1. Incorporates proactive instructional planning techniques using a framework that:
   a. Provides flexibility in the ways:
      1. Information is presented;
      2. Students respond or demonstrate knowledge and skills; and
      3. Students are engaged;
   b. Reduces barriers in instruction;
   c. Provides appropriate accommodations, supports, and challenges; and
   d. Maintains high achievement expectations for all students, including students with disabilities and students of limited English proficiency; and
2. Integrates inclusive and evidence-based instructional practices for all students, including students with disabilities.

Staff development shall be predominantly campus-based, related to achieving campus performance objectives, and developed and approved by the campus-level committee.

A district may use district-wide staff development that has been developed and approved through the district-level decision process. [See BQA and BQB, as appropriate]
Definition of Professional Learning

BISD defines professional learning as an ongoing course of study that changes participants’ behavior in a way that produces a demonstrable and measurable effect on student learning. The BISD Professional Learning Plan is built on the expectations that all supervisors are professional developers of the employees they supervise, and all employees will continually seek opportunities to grow professionally to improve performance. Excellence in the education profession is not merely a condition but rather “a process of continuous improvement over time” (Wink, 2017, p. 25).

BISD Professional Learning Mission

The mission of the Professional Learning Program in BISD is to improve student learning by supporting professional learning activities closely related to the work of teaching and the process of learning. Based on relevant research, professional learning will be designed to enhance the continuous professional growth and learning of all employees, while supporting the goals of the district, the campus, and the individual educator.

BISD Professional Learning Belief Statements

In BISD we believe professional learning:

● Should be designed for a clear and compelling purpose aligned with the BISD Strategic Plan;
● Is research-based, job-embedded, and on-going to improve student outcomes;
● Is meaningful and relevant to the adult learner;
● Builds a shared vision supporting collaboration and collegiality;
● Builds capacity for all employees;
● Is facilitated to ensure transfer of learning for adult learners and includes coaching and other kinds of follow-up support to transfer learning into daily, sustained practice;
● Should be offered by various modes of delivery (face-to-face, blended, on-line, etc.)
● Must be grounded in inquiry, reflection, action and evaluation; and
● Is evaluated based on changes in practice enhancing the educational experiences of each student.

Professional Learning Rationale

Professional learning is the primary vehicle to achieve the overall purpose of improving educator effectiveness and increasing student achievement. A well-designed professional learning program is an essential component of a district’s efforts to achieve its mission and goals and to connect curriculum design and classroom delivery. Effective professional learning is research-based and driven by multiple forms of data, individualized to allow for differentiation for adult learners, and provides all employees with the skills and knowledge needed to meet the needs of diverse student populations.
Theoretical Basis of Professional Learning

All professional learning offered in BISD is based on adult learning theory which recognizes that adult learners, like student learners, have unique needs that must be considered and addressed. Knowles, Holton, and Swanson (2015) emphasized the following aspects of adult learning theory should be considered when professional learning is designed:

- Adults will commit to learning when the goals and objectives are considered realistic and important to the adult learner’s personal and professional needs;
- Professional learning needs to provide adult participants some control over the what, who, how, why, when, and where of their learning;
- Adults need to receive feedback on how they are doing and the results of their efforts. Opportunities must be built into professional learning activities that allow the learner to practice the learning and receive structured, helpful feedback; and
- Adult learners come to learning with a wide range of previous experiences, knowledge, self-direction, interests, and competencies. This diversity must be accommodated in professional learning planning and implementation.

Professional Learning Advisory Committee

The district will maintain a Professional Learning Advisory Committee composed of representatives from various departments, campuses and programs that serve in an advisory capacity to district leadership. Membership on the Professional Learning Advisory Committee will include representatives from the following:

- 1 Teacher representative from high school level
- 1 Teacher representative from middle school level
- 1 Teacher representative from elementary school level
- 1 Elementary Instructional Coach
- 1 Secondary Instructional Coach
- 1 Administrative representative from high school level
- 1 Administrative representative from middle school level
- 1 Administrative representative from elementary school level
- 1 Employee representative from the Special Education Department
- 1 Employee representative from Teaching and Learning Department
- 1 Employee representative from Technology-Digital Learning Department
- 1 Employee representative from Human Resources Department

The above representatives serve staggered two-year terms and are nominated by their supervisors.

Standing members of the Professional Learning Advisory Committee include:

Chief Administrative Officer
Chief Instructional Officer
Chief Human Resource Officer
Chief Technology Officer

The Professional Learning Advisory Committee will meet a minimum of twice annually to review evaluation data of student performance, professional learning evaluations, program evaluations, and other performance data to determine specific professional learning needs within the context of the district Professional Learning Plan. It is the goal of the BISD Professional Learning Plan Advisory Committee that this professional learning plan links specific initiatives to all district goals.

Recommendations from the Professional Learning Advisory Committee are presented to the district’s senior leadership no later than November of each year to be included in the budgeting and planning process for the following school year.
Professional Learning Plan

The organizational structure of the Professional Learning Plan reflects the career cycle of all employees. Professional learning career cycles in future years will reflect specific expectations for all employees along the BISD Professional Learning Continuum (see Appendix A):

**Beginning:** Reflects the career cycle of an employee who is new to the assignment;

**Developing:** Reflects the career cycle of an employee who has gained specific experience in the current assignment and possesses deepening skills;

**Meeting:** Reflects the career cycle of an employee who has gained a deeper level of experience in the current assignment and possesses specific skills; and

**Expert:** Reflects the career cycle of an employee who has gained the highest level of experience in the current assignment, possesses specific skills, and is viewed by colleagues and supervisors as a leader in the field of work.

The plan is based on the Curriculum Management Audit (Murdoch, 2018) recommendation to create a professional learning plan “that focuses on developing a culture of growth and learning in a comprehensive manner to address teacher learning that will result in student learning” (p. 17). The plan was developed to ensure delivery of research-based best practices in adult learning theory and state standards for professional learning.

The time span of the professional learning plan is three years, with annual review and adjustment as needed to address emerging needs or other changes impacting priorities for these services. Each current/immediate year’s plan will contain explicit and complete information for each group of employees. The future three years will contain a general informational framework that will be developed in detail as data and other feedback lead to specific contents and contexts for the professional learning offerings. As a year of professional learning is completed, the subsequent plans will be modified as needed and the third year projected then added to the plan.

Boerne ISD Strategic Plan Professional Learning Alignment

District professional learning will be aligned to T-TESS domains and four pillars of focus identified through the 2023 strategic planning process aimed at transforming classrooms into innovative learning environments. The four pillars of focus are:

- **Student Success:** By 2028, 100% of Boerne ISD students will engage in innovative learning experiences so they are college, career, and/or military ready.
- **Customer Service:** By 2028, 100% of Boerne ISD stakeholders will be a part of a culture of trust where they feel engaged and valued.
- **Human Capital:** By 2028, 100% of the Boerne ISD employee experience will prioritize opportunities to perform at and aspire to the highest level of professional performance and growth.
- **Fiscal Responsibility:** By 2028, Boerne ISD will maximize funding and efficiencies so our budget funds 100% of our identified needs.

See Appendix B for the Boerne ISD Strategic Plan 2023-2028 and the Boerne ISD Scorecard.

Boerne ISD Current District Initiatives Alignment

All professional learning in BISD will be aligned to the following three concentrations to ensure optimal learning outcomes for both adults and students: Instructional, Relational, and Leadership.
Learning Designs for Results-Driven Professional Learning

**Instructional**
All instructional professional learning will be focused on curriculum, instructional practices, assessment, and response to learning as guided by the fundamental questions of Professional Learning Communities (PLC) (DuFour et al., 2010).

![Instructional Diagram](Image)

**Relational**
All relational professional learning will be focused on a whole child approach and tenets (ASCD, 2019) encompassing topics in behavior, social-emotional learning, and academics.

![Relational Diagram](Image)

Leadership

All leadership professional learning will be focused on the following topics: Customer Service, Budgeting, Administrative Processes, and Leadership Learning.

BISD administrators, including the superintendent, chief officers, campus principals, directors, and coordinators, are expected to participate in high-quality professional learning that is relevant, based on an administrator’s years of experience, and includes opportunities to attend local, state, and national conferences.

Administrator professional learning will include:
- Content driven by district data and principal feedback
- Facilitated content by both district and out-of-district presenters
- Job-embedded content to include multiple delivery methods

Roles and Responsibilities for Professional Learning

All BISD employees are expected to model lifelong learning through participation and application of professional learning. Professional learning at the district level is determined by district initiatives along with state and federal guidelines. Campus/department professional learning is based on alignment with the district mission and goals, campus/department needs, and improving instructional/operational practices. Continuing Professional Education (CPE) is required of all Texas educators holding standard certificates.

The Role of Central Office

- Communicate and clarify the contents of the district’s professional learning plan to all district employees.
- Review district/campus/staff/student data to determine specific district needs for professional learning.
- Develop and deliver professional learning sessions aligned to district goals on designated district professional learning days.
- Conduct participant surveys following each district professional learning session to determine effectiveness and future professional learning needs.
- Monitor implementation of professional learning.
- Maintain the district professional learning management system, Eduphoria!.
  - Create approved, local professional learning sessions in Eduphoria!.
  - Grant or deny credit for local and out-of-district professional learning in Eduphoria!.
- Facilitate the Professional Learning Advisory Committee.
- Research and attend professional learning sessions outside the district in order to maintain knowledge of current best practices in instructional, relational, and leadership areas.
The Role of Principals and Campus Leadership

- Review data to determine specific campus needs for professional learning.
- Create a campus professional learning plan in alignment with needs assessments.
- Develop and deliver approved professional learning sessions aligned to district and campus goals.
- Attend district professional learning sessions.
- Ensure employee participation in district/campus professional learning by monitoring registration in Eduphoria! prior to scheduled sessions and confirming attendance following the sessions.
- Collect specific feedback regarding campus professional learning so that future trainings can be designed to meet the needs of all employees.
- Monitor implementation of professional learning in classrooms and programs.
- Develop an individual professional learning plan annually as a part of T-PESS.
- Research and attend professional learning sessions outside the district to maintain knowledge of current best practices in effective leadership and general instructional delivery.

The Role of Teachers and Other Professional Employees

- Develop an individual professional learning plan annually as a part of T-TESS or other appraisal system as determined by job placement for the following school year.
- Attend and actively participate in district and/or campus professional learning offered on designated professional learning days in the school calendar.
- Attend and actively participate in other professional learning sessions, as approved by principal or supervisor, which support the individual’s professional learning plan.
- Register for scheduled district/campus professional learning in Eduphoria! prior to the date of the event.
- Provide specific session feedback via surveys.
- Implement professional learning in practice as it is applicable to employee’s assignment.
Professional Learning Norms

Norms are the standards or expectations by which individuals have agreed to operate while working together. Norms help maximize the productivity and effectiveness in a positive setting and ensure that individuals are respected. They place responsibility on individuals for expected behavior helping to build community in the group and, at the same time, allow for risk taking. The following district norms have been established to guide our professional learning activities:

- Be present and attentive.
- Have a positive attitude.
- Be responsible and accountable for self.
- Fully engage in the learning through listening, discussing and participating.
- Commit to utilize new learning to benefit the students and employees we serve.

Absenteism and Making Up Professional Learning Sessions

If the employee is unable to complete the entire learning or workshop, they must check with the sponsoring agency. In-depth and intensive training sessions often require participants to meet all attendance requirements to receive CPE credit.

In the event of an absence during a district-scheduled professional learning day, the employee must inform their principal/supervisor of the absence and reports it in the district’s absence system in Skyward Finance.

- The district expects all employees who miss campus-based and/or district-based professional learning sessions to make up the sessions within a reasonable amount of time.
  - Campus-based professional learning sessions will be made up during an agreed upon time between the campus administrator and the employee within 10 days.
  - District-based professional learning will be made up during an agreed upon time between the district department offering the session(s) and the employee within 10 days of the initial offering.

After three recorded absences in Eduphoria! Strive, an employee will be locked out of the Strive registration system. If this occurs, the employee must confer with their principal/supervisor to discuss the absences and remedy the employee’s absence lockout status.
Planning, Evaluation, and Monitoring Professional Learning

It is expected that all supervisors actively support their employees in their professional growth activities through the collaborative learning of annual growth targets, the ongoing monitoring of performance, and annual appraisal. All professional learning sessions in BISD are required to follow a consistent process for planning and evaluation. These requirements are in place to ensure that all professional learning is of the highest quality and has a lasting impact on employee performance and results in improved student achievement.

Planning for Professional Learning

Of all the professional learning decisions made, none is more important than the linkage of efforts to district change. To justify time, energy, and money invested, professional learning activities offered in BISD are research-based, proven in practice, and relevant to district, campus, and department goals. Each participant will understand the learning outcomes and the relevance to other practices, strategies, policies, or procedures that are currently in use or will be in use.

Employing a backward design model, the BISD Professional Learning Plan includes a planning framework to guide all campuses and departments in planning quality professional learning for all employees. By utilizing the planning framework, a common language and planning sequence will be employed ensuring a standard process is in place. The process includes these concepts:

- Planning for professional learning will begin with the end goals for student achievement based on needs assessments.
- New practices or strategies are matched to the desired student achievement result. Careful consideration is given during the planning process for on-going support from district and campus personnel.
- Professional learning activities build on the knowledge base needed to ensure success with new learning.
- Design of professional learning activities match the best delivery approach with the intended audience and the new skills that will be a result of the learning activity.

Needs Assessments for Planning Professional Learning

Assessment of professional learning needs across the district will include, at a minimum, the following informational feedback sources:

- District expectations for effective organizational leadership, instructional leadership, and teaching supporting adult learners in attainment of student learning success, and
- Identification of professional learning needs and offerings will be based on consideration of data aligned to:
  - District vision, mission, and strategic goals;
  - District and campus improvement plans;
    - A range of data sources providing information about student performance such as: universal screeners, local, state, and national assessment data;
  - Evaluative feedback on prior offerings;
  - Employee performance appraisals;
  - Information regarding innovation efforts and introduction of new expectations;
  - Legal and regulatory requirements; and
  - Collaborative instructional rounds through the coaching model and the BISD Walk-Through Form.
Professional Learning as a Component of Annual Teacher Appraisal

As a component of the BISD board-approved teacher appraisal system, T-TESS, teachers are required to work closely with their supervisors to identify and plan annual professional learning targets aligned with the district mission and goals and focused on increasing student achievement. These professional learning targets are reviewed first and second semester as well as at the end of each school year. Teachers complete a self-assessment in Eduphoria! Strive that is used in planning individual professional learning for the next school year.

- The professional learning plan may incorporate all forms of professional learning, not limited to traditionally provided courses offered by outside entities or to whole staff. Professional learning could include working within professional learning communities (PLCs), a department chair, or another teacher on practices identified as improvement goals. It could also include self-directed professional learning that seeks literature, online videos, or modules addressing practices that the teacher identified as improvement goals.
- Each campus annually conducts orientation sessions with information describing the appraisal system no later than the final day of the first three weeks of school and at least two weeks before the teacher’s first observation. Summative conferences focus on T-TESS, Professional Learning Plan, and other related data sources.

Funding for Professional Learning

Various funding sources are available for planning and implementing professional learning in BISD. The most used sources include district funds, state compensatory funds, federal funds, Title allotments, various grants, community partnerships, fundraising, and campus budgets. During professional learning planning, funding sources are identified, and evaluation criteria are determined. All professional learning is monitored for ongoing support of and impact on student learning so that full utilization of funds allotted is realized.

Approval Process for Campus/Department Professional Learning

All professional learning offered within BISD must be focused on and closely aligned with the district mission and goals. The Teaching and Learning Department supports the district, campuses/departments, and individual employees through the approval, tracking, and evaluation of all employees’ professional learning.

Campuses or departments may hold professional learning beyond the scope of current district initiatives providing they submit a professional learning proposal for approval and adhere to the following procedures (see Appendix C):

- When a need is identified, a campus or department administrator, in consultation with the leadership team, should carefully review the district mission and goals to determine how addressing the identified need will support the district direction.
- Once the supporting mission and goals are identified, the administrator should gather all available data and develop a complete course description of the need.
- Utilizing research, the administrator should then explore potential options to address the identified need and develop a brief description of the professional learning session, including duration, number of employees involved, and the cost and identified funding source.
- The administrator will identify a minimum of two measurable, time-bound outcomes resulting from BISD employees participating in the professional learning session. These outcomes must be included in each course description.
● The administrator will explain how application of the new skill will be supported and monitored within each course description and indicate the session’s alignment with district goals, district improvement plan goals, and campus improvement plan goals.
● The course description will be submitted to the supervising district leader for review via Eduphoria!. The course will not move through the approval process unless the required information is included in the description and the aligned goals are noted.
● If approved by the supervising district leader, the course description and goals will then be submitted to the Chief Instructional Officer via Eduphoria! for final review.

Evaluation of Professional Learning

For BISD employees to receive credit for professional learning completed within the district, an evaluation survey of the professional learning session must be completed. The evaluation results of all professional learning sessions are used as a measure for ongoing improvement.

Professional Learning sessions, programs, and initiatives will also be evaluated by the following factors:
● Participants’ reactions: The perceptions of the professional learning delivery and attitudes towards the professional learning initiative;
● Participants’ learning: The knowledge of the professional learning content;
● Organizational support and change: Active advocating, leadership understanding, time for learning, effective communication of expectations for new learning, alignment with district goals, financial support for ongoing learning and effective atmosphere for learning;
● Participants use of the new knowledge and skills: Participant implementation of learning expectations;
● Students’ learning outcomes: Student attitudes, engagement, effort, motivation, support and self-efficacy, improved student achievement; and
● Demonstrating capacity of learning: Coaching, instructional reviews, content coordinators and administrators communicate content expertise, common language, adapting implementation based on feedback, time devoted to deeper learning, facilitation of collaboration, support of the initiative and delivery of content to new participants.

Monitoring Implementation of Teacher Professional Learning

All campus instructional leaders are expected to monitor the delivery of the curriculum and be able to determine the concepts or skills being taught, the context within which it is being taught, and the cognitive level at which students are expected to demonstrate their learning using collaborative instructional rounds. They are also expected to be able to determine if all the aspects observed match the district curriculum. Instructional leaders are also expected to conference with and provide feedback to teachers about their teaching through both reflective questions and dialogue to improve the delivery of the district curriculum.

The implementation and delivery of the curriculum is monitored by the campus and district level teams through a frequent walk-through process as well as formal observations. The campus principal is the instructional leader responsible for monitoring the implementation of the district curriculum. The classroom visitations will include quick “snapshots” of the daily implementation of the curriculum and instructional strategies.
Tools for Monitoring the Taught Curriculum

The taught curriculum is to be monitored by the campus administrative team using any of the following tools:

- Analysis of student assessment data
- Observations of teachers
- Interviews and conferences with individual teachers and/or teams
- Meetings with district curriculum/instruction personnel
- Review of lesson plans and instructional units
- BISD Walk-Through Form
Professional Learning Requirements

All BISD employees are expected to model lifelong learning through active participation in and application of professional learning. Professional learning at the district level is determined by district initiatives along with state and federal guidelines. Campus/department professional learning is based on alignment with the district mission and goals, campus/department needs, and on improving instructional/operational practices. All professional employees, including but not limited to principals, school counselors, librarians, educational diagnosticians, supervisors, coordinators, directors, or visiting teachers, shall participate in professional learning activities and shall be required to complete a minimum of 150 to 200 clock hours of professional growth every five calendar years as required by the Texas State Board for Education Certification (SBEC).

Professional Learning Requirements for Teachers

As the largest group of employees in BISD, teachers play a critical role in the academic success of students. Because of this responsibility, specific professional learning requirements have been established to ensure the district maximizes resources to support teacher professional learning.

- All currently employed certified, degreed personnel will be required to attend all district and campus professional learning day sessions in their entirety.
- Approved CPE hours earned outside of the contract day may apply to designated Exchange Days.
- Based on teaching assignment, TEA, and district requirements, currently employed certified, degreed personnel will be required to complete specific professional learning hours as outlined in this plan and any necessary addendums to this plan (see Appendix A).

Professional Learning Requirements for New-to-BISD Teachers and Novice Teachers

In addition to the general professional learning requirements for teachers, New-to-BISD teachers will receive at least 2 days of district-led orientation and training designed to provide the information needed to integrate into the district’s culture and systems. In addition to onboarding provided by Human Resources, all new-to-BISD teachers will receive training in technology services, curriculum management, and content-based topics provided by the Teaching and Learning Department. Each new-to-BISD teacher will receive additional professional learning support from a campus-based mentor assigned by the campus principal. The mentor will provide 1:1, continuous guidance on district and campus protocols, policies, technology, procedures, and instructional practices.

In addition to the general professional learning requirements for teachers, teachers with less than two years’ experience will participate in the “New Teacher Mentor Program.” On-going collaborative, professional learning meetings will be required as part of the New Teacher Mentor program. In addition to district-level learning initiatives and annual compliance trainings, the district provides additional professional learning designed to support new teachers with less than two years’ experience. This learning is delivered in a collaborative, experienced-based format to build on day-to-day classroom experiences and to provide research-based support through strategic and purposeful classroom management tools, strategies, tips, and techniques.
Professional Learning for Paraprofessional and Auxiliary Employees

- Campus-based paraprofessional and auxiliary employees assigned to work with students are required to attend all campus and district professional learning day sessions during the year based on their job responsibilities.
- Campus-based paraprofessional and auxiliary employees not assigned to work directly with students are required to attend all professional learning day sessions during the year based on their job responsibilities.
- District-level paraprofessional and auxiliary employees are required to attend all professional learning during the year based on their job responsibilities.
- Campus-based paraprofessional and auxiliary employees assigned to work with students may earn a maximum of three Exchange Days (See Appendix F) for attending approved professional learning outside the employee's contracted workdays. These Exchange Days may only be used on district professional learning days that are established as comp-eligible in the current district calendar.

Professional Learning Requirements for other Certified Professionals, Administrators, and District Leadership

BISD leaders, whether at the district or campus level, are expected to model lifelong learning through active participation and application of professional learning in leadership. BISD will provide opportunities for all campus and district leaders to continue their learning through embedded job experiences and training offered through partner organizations. The purpose of ongoing leadership learning is to ensure BISD leaders are fully equipped to function effectively and influence others to continuously improve instructional, cultural, and strategic operational practices that lead to student success.

Professional Learning Requirements for Late-hire Employees

Employees hired after the general, contract report date will be required to attend onboarding, training, and information make-up sessions scheduled in partnership with the Human Resources and Teaching & Learning Departments. Sessions may include but are not limited to required face-to-face professional learning time, video tutorials, campus-based professional learning time, webinars, etc. Exchange Day eligibility will be determined on a case-by-case basis.

State Board of Educator Certification (SBEC) Rules for Continuing Professional Education (CPE) Credits

The SBEC rules for CPE hours for renewal of certifications can be found here: Standard Certificate Renewal Requirements.

The following credit types will be utilized in BISD.

20
Acceptable CPE Activities

Acceptable professional learning activities eligible for CPE credit include attending workshops, conferences, and clinics conducted by TEA-approved providers face-to-face or online. Undergraduate and graduate coursework related to the employee’s job assignment completed through an accredited institution of higher education is also acceptable.

- Faculty meetings focusing on policies, procedures, and the dissemination of information are not recorded as CPE.
- Educators are encouraged to travel and attend enrichment activities; however, educational trips – personal or school-related – may not be applied toward CPE credit hours.

Undergraduate and Graduate Coursework

Undergraduate and graduate coursework applicable to the employee’s job assignment through an accredited institution of higher education (IHE) will be awarded as 1 credit hour equivalent to 15 CPE clock hours (3 credit hour course = 45 CPE hours). Credit and credit type will be considered for approval with the submission of an official transcript. CPE credits will not be approved for any undergraduate and/or graduate coursework completed outside of the current school year cycle (May 27, 2023-May 24, 2024).

Independent Study

Independent Study is an approved method to earn CPE hours. The State Board of Educator Certification (SBEC) limits Independent Study CPE to 20% of the required clock hours during a five-year renewal period: 30 hours for the Standard Classroom Teacher Certificate and 40 hours for Standard Principal, Counselor, Librarian, Diagnostician, and Reading Specialist Certificates.

Developing, Teaching, and Presenting CPE

Developing and presenting CPE activities for other educators is a valuable and effective form of professional learning. BISD encourages educators to participate in the BISD Presenter Academy. This type of CPE is not to exceed 10% of the total required CPE hours.

Instructional Technology

Professional learning sessions qualifying for “Tech Credit CPE” and/or “Tech Credit CPE-outside the contract day” must cover the integration of instructional technology should alter instruction through reaching the Augmentation, Modification, and/or Redefinition phases of instruction based on the Substitution Augmentation Modification Redefinition (SAMR) model. Employees should seek to enhance their expertise in the integration of instructional technology and should not repeat professional learning sessions in instructional technology topics for which they have already earned credit. Employee CPE requests for “Tech Credit CPE” and/or “Tech Credit CPE-outside the contract day” will be reviewed by the Digital Learning Coordinator to determine if the request meets the district’s minimum qualifications for credit in this category.
Exchange Days

Each year certain employees are allowed to accrue up to 3 days of compensatory time through the completion of approved professional learning outside of their regular contract time. These days may be used during the Exchange Days designated on the BISD school calendar. Each calendar year, district leadership along with the Professional Learning Advisory Committee shall determine the specific requirements for Exchange Days (See Appendix F). Paraprofessional and auxiliary employees fall under different guidelines available through BISD Human Resources or their supervisor.

Who is eligible?
Exchange Days are required of all professional employees on a 187-207-day work contract. This includes Teachers, Instructional Coaches, Interventionists, Librarians, Counselors, Specialists, Therapeutic/Evaluation Staff, ARD Facilitators, and Nurses.

What constitutes approved professional learning for Exchange Days?
- Professional learning must be from a TEA-approved provider and must meet the requirements determined by the BISD Teaching and Learning department (see Appendix D).
- A dual-contract teacher/coach may receive CPE credit for attending a coaching clinic for 6 hours of Exchange Day credit. Additionally, a dual-contract teacher/coach must complete 6 hours of academic content area professional learning for the remaining Exchange Day credits.

When must professional learning eligible for Exchange Days occur?
- Professional learning must occur outside of the regular academic calendar or contracted workday.

How do I submit my professional learning hours for Exchange Days?
- Eligible employees are required to enter professional learning hours no later than 10 business days prior to the use of the Exchange Days in Eduphoria! Strive.

How do I keep track of my Professional Learning Portfolio?
- In Eduphoria! Strive, you can see a running list of all professional learning credits you have earned.

What if I do not have any professional learning hours that apply?
- Employees who do not meet the requirements or are not eligible for Exchange Days will be required to use personal leave or request dock pay for the absence.

What if I was a late hire?
- A late-hire employee’s eligibility will be determined by the campus principal or employee’s immediate supervisor for non-instructional positions on a case-by-case basis.
Documentation of Professional Learning

All BISD employees are expected to register in the automated management system (Eduphoria! Strive) for every district-led professional learning session they attend (See Appendix F).

- BISD employees can check their BISD portfolio summary in Strive.
- Registration should be completed at least two days prior to the session.
- It is the responsibility of the employee to sign in at every professional learning session conducted on campus and district professional learning days and to attend the entire session to receive credit. Any employee who does not sign in and stay for the entire session will be reported to their supervisor as being absent.
- Documentation of and credit requests for professional learning attended outside the district is the responsibility of the individual employee. The employee must receive proper documentation of attendance: date, title of session, CPE hours, provider number, and authorizing signature.
  - An employee may enter out-of-district learning sessions for the current school year only.

**IMPORTANT**: Each employee is strongly encouraged to keep a personal file of previous years’ certificates not in Eduphoria! Strive as evidence of completion in the event of an SBEC audit. Prior to departure from BISD, each employee is responsible for printing a copy of their Eduphoria! Strive portfolio and all applicable certificates.

Approval of CPE Credits

**In-distinct professional learning courses:**
- Register for the course in Eduphoria! Strive.
- Sign the attendance roster when checking in to attend the course.
- Complete the course survey within 48 hours of the course completion.
- Credit will be granted by the Teaching and Learning Department.

**Out-of-district professional learning offerings:**
- Obtain approval from campus principal or supervisor to attend the course.
  - The course provider must be a TEA-approved provider and provide written documentation of the participant’s attendance indicating:
    - CPE provider’s name and provider number (CPE provider number for school districts, charters, private schools, and institutions of higher education is their assigned County/district number);
    - Employee’s name;
    - Date and content of the activity;
    - Number of clock hours that count toward satisfying CPE requirements; and
    - Authorizing signature
- Register for the course.
- Complete all requirements for attendance of the course.
- Submit a request for credit by adding a new portfolio entry in Eduphoria! Strive (see Appendix D) that includes a copy of the course attendance certificate.
- Credit will be reviewed by the Teaching and Learning Department to determine eligibility for approval of credit.
College coursework:

- Submit a request for credit by adding a new portfolio entry in Eduphoria! Strive (see Appendix D) including a copy of the employee’s official grade report or transcript.
- Credit will be reviewed by the Teaching and Learning Department to determine eligibility for approval of credit.

Annual Compliance Trainings

All employees will access the state-mandated trainings online through the TalentED Records system at the beginning of the school year with training completion deadlines set by Human Resources department. Annual compliance trainings do not qualify for Exchange Day credit.

BISD employees are required to participate annually in statutory professional learning training for all employees. The following list reflects mandatory compliance training. All mandatory trainings can be found at the link: A Guide to Statutory Professional Learning & Training For Texas Public School Employees.

BISD Annual Compliance List includes but is not limited to:

- Bloodborne Pathogens in Schools
- Child Sexual Abuse: 5 Steps to Protecting our Children
- Child Abuse: Reporting Requirements for Educators
- Cybersecurity Training
- Employee Handbook Acknowledgement
- Family Educational Privacy Rights (FERPA)
- Food Allergy Awareness for Schools/Use of EpiPen
- Freedom for Discrimination, Harassment and Retaliation
- Public Access to Information Option
- Safety Alerts and Protocols
- Suicide Prevention
- Teen Dating Violence
- Technology/Internet Usage Agreement

Professional Learning for Serving Emergent Bilingual Learners

BISD teachers and administrators are trained annually in planning for and providing instruction to support the language and academic needs of our Emergent Bilingual (EB) students. Teachers are trained to understand, effectively plan, and implement Sheltered Instruction strategies to integrate the English Language Proficiency Standards (ELPS) seamlessly alongside content area TEKS. All teachers are trained on the Texas English Language Proficiency Assessment System (TELPAS). Teachers may be trained in the Language Proficiency Assessment Committee (LPAC) framework if asked to serve on an LPAC.

Professional Learning for Serving Students with Dyslexia
All teachers are required to complete annual TEA Dyslexia training. The annual training will be provided at each campus by the assigned dyslexia specialist/teacher. Additional updates are provided at the campus level by dyslexia specialists.

**Professional Learning for Serving Gifted and Talented Students**

As specified in 19 TAC §89.2 Professional Learning, each school district must ensure the following:

- Prior to assignment in the program, a teacher who provides instruction and services as a part of the program for gifted students must have a minimum of 30 hours of professional learning that includes nature and needs of gifted/talented students, assessing student needs, and curriculum and instruction for gifted students.
- A teacher without the above required training who provides instruction and services that are part of the gifted/talented program must complete the 30-hour training requirement by the end of the fall semester.
- A teacher who provides instruction and services that are a part of the program for gifted students must complete a minimum of six hours of professional learning in gifted education annually. The annual update must be completed by the end of the fall semester.
- Administrators and counselors who have authority for program decisions must complete a minimum of six hours of professional learning that includes nature and needs of gifted/talented students and program options.

Options for teachers to complete the required initial 30-hour training and the annual 6-hour update are outlined by the Director of Advanced Academics.

- Per available funding, the district pays for initial College Board PreAP/AP Summer Institute registration for teachers assigned to Honors (formally PreAP) and AP courses.
- Twelve hours of The College Board PreAP/AP Summer Institute may substitute for the curriculum and instruction requirements. The College Board PreAP/AP Institutes do not fulfill the nature and needs or assessing student needs components.

**Professional Learning for Special Education Services**

All teachers and campus administration will complete a special education/Section 504 annual compliance training and accommodations/modifications training.

Crisis Intervention Prevention (CPI) training focuses on prevention and offers proven strategies for safely diffusing anxious, hostile, or violent behavior at the earliest possible stage. Initial, 6-hour CPI training is required for employees who have not attended CPI or whose CPI certification has lapsed. Upon completion of the initial CPI training, designated faculty must attend an annual three-hour CPI refresher session. CPI is an annual certification.

CPI is required for the following employees:

- All Special Education teachers and teaching assistants assigned to Behavior, Life Skills, and ECSE classrooms, including 1:1 staff/student assignment;
- Campus Crisis Team, which minimally must include an administrator, SPED teacher, and GE staff member; and,
- Any other faculty/staff designated by the principal.
Long-Term District Professional Learning Initiatives

BISD supports long-term professional learning initiatives providing sessions on reflective leadership and coaching and using data to make decisions regarding teaching and learning.

Boerne ISD Instructional Coaching Program

The BISD Instructional Coaching Program is designed to maximize student achievement by improving overall teacher efficacy. Instructional Coaches in BISD are campus-based personnel and liaisons between district staff and campus instructional staff. The role of the instructional coach is to support teachers by developing educational partnerships that empower teachers. Through the facilitation of job-embedded, transformative, and personalized professional learning, the instructional coach strives to help teachers positively impact student success. The scope of the instructional coach’s work includes engaging in coaching cycles with teachers to include goal setting, data collection, and reflective analysis as well as planning and facilitating larger-group learning events such as Professional Learning Communities. Instructional coaches are peer coaches, intentionally kept separate from the evaluation process to ensure that teachers engaging in coaching cycles can truly focus on improvement. The foundation of the program is built on the work of Jim Knight, author of *The Impact Cycle: What Instructional Coaches Should Do to Foster Powerful Improvements in Teaching* (2018)

Aspiring Instructional Coach Program
BISD believes in the importance of growing the capacity of BISD teacher leaders. Candidates for the Aspiring Instructional Coach Program are recommended by campus principals and the directors of the Instructional Coaching Program. Throughout the school year, aspiring instructional coaches are presented with learning opportunities designed to hone their skills in instructional coaching, working with adult learners (andragogy), professional learning design and implementation, and district initiatives. Participants receive additional coaching in résumé development and interview skills.

Boerne ISD Professional Learning Communities

BISD believes Professional Learning Communities (PLC) embody high-quality, job-embedded professional learning and are a highly effective practice to ensure academic growth for all students. BISD established Professional Learning Communities (PLCs) into the work schedule for all teachers during the 2020-2021 school year. The purpose of PLC is to encourage professional learning, collaboration, and the collection and analysis of student data to improve instructional practices to maximize student achievement. BISD will incorporate three types of PLC:

- **Teacher PLCs**: Comprised of teams of teachers, typically organized by grade-level or content area, led by teacher leaders/administrators, and focused on grade- or subject-level student needs.
- **Campus PLCs**: Comprised of teacher leaders, led by principals, and focused on campus-level student needs.
- **District PLCs**: Comprised of campus and district leaders, led by district leadership, and focused on district-level system needs.
Boerne ISD Mentor Program

Campus-based New Teacher Mentors, selected by campus principals, will be required to attend New Teacher Mentor Training as one component of the district’s Professional Learning Plan. This training will provide the BISD framework and timeline for support, professional learning on best practices for being a Mentor, and on-going collaboration through the district-based New Teacher Mentor Program. In addition, campus-based New Teacher Mentors will be required to log and report dates and times of collaborative support opportunities spent with their assigned new teacher (Mentee). This time may include conferences, observations, 1:1 time spent daily, weekly, and monthly, and all other Mentor-Mentee partnership time throughout the school year. Follow-up meetings after the initial New Teacher Mentor Program will be required.

Boerne ISD Presenter Academy

The BISD Presenter Academy supports the district’s strategic planning process to create a culture of collaboration by providing teachers with the support they need to work with campus leadership to provide teacher-led professional learning. This academy provides employees with the skills needed to design and implement effective professional learning sessions both in and out of the district. Participants will demonstrate an understanding of how teaching adults, andragogy, differs from teaching children and will be expected to apply this knowledge through the design and delivery of a professional learning session in their area of expertise.

Appendix C

Campus-based Professional Learning Workshop Formspace Request

Log into Eduphoria! and select Formspace.

Select Submit New Form.

Choose Teaching & Learning from the Category Menu.
Select the Professional Development Form.

Complete the form and click Submit Form either from the menu at the top or the button on the bottom of the form.

The workflow will send the form to Teaching and Learning where it will be routed to the appropriate content coordinator. Once the content coordinator has approved the professional learning workshop it will be routed to the Chief Instructional Officer for final approval. The form will then be returned to the campus administrator. The administrator will receive notifications from Eduphoria during each step of the process.

After receiving final approval, print the form and attach it to the purchase order for the professional learning workshop.
Appendix D

Requesting Credit in Eduphoria! Strive

When you attend professional learning outside of the district through conferences, ESC service center workshops or college courses, you can add these items to your portfolio for accurate professional learning record-keeping. Prior to attending professional learning sessions outside of the district, employees should seek to verify with their supervisors, directors, or content coordinators the course is conducted by an approved provider.

- In Eduphoria! Strive, click on “My Professional Learning”

- Select “Portfolio”

- Once in your “Portfolio,” click on “My Portfolio” and then “Add New Portfolio Entry” to open the “New Portfolio Entry Wizard.”

- In the “New Portfolio Entry Wizard,” select either “Outside workshop or conference” or “College course.”
- Click “Next” at the bottom right to move to the next section.
• Enter the “Title” of the workshop or college course.
• Enter a “Description” of the course that includes the learning outcomes for the course.
• Use the calendars to enter the “Start Date/End Date.”
• Set the “Start Time/End Time” for the course.

• For “Credit Type,” enter the number of hours you earned based on your certificate and the corresponding credit.
  • Choose “CPE” or “CPE-outside the contract day” for content-specific courses.
  • Choose “CPE-GT” or “CPE-GT outside the contract day” for GT-specific courses used to meet the 30-hour or 6-hour requirements.
  • Choose “Tech Credit-CPE” or “Tech Credit-outside the contract day” for courses meeting the district’s Tech Credit CPE guidelines.
  • Choice credits for Exchange Day requirements may be in any combination of outside the contract day credit types.
• Also, enter the credits in “Texas SBEC CPE” as you will want the credits to be listed for your certification renewal.
• Enter any comments needed to provide additional context to the employee responsible for reviewing your request.
• Click “Next” at the bottom right.
- Under “**Frameworks and Dimensions,**” use the “+” to open the “**T-TESS**” or “**T-PESS**” dimensions and select the dimensions aligned to your credit request.
- Click “**Next.**”

![Image of Portfolio Entry Wizard]

- If you have any files to upload to verify your attendance such as a certificate or reflection document, select Choose File and browse to the document to upload. You can upload up to 3 files on this screen.

![Image of Portfolio Entry Wizard: Upload Attachments]

- Click Finish to close the Portfolio Wizard.

After you finish the wizard, you have the ability to go back to the request under My Portfolio to add notes, attach additional documents, select credit type and attach goals (if enabled in your district) before submitting the credit for review.
Appendix E

2023-2024 District Professional Learning Calendar Overview

For the 2023-2024 school year BISD teachers and other professional employees have 12.5 scheduled days of professional learning. This includes 3 Exchange Days and ½-day for Convocation. There are 3 workdays.

New-to-district teachers have 2 additional days of professional learning.

July 24-27: New Teacher Orientation and Boerne U

August 1-9: Faculty and staff are scheduled for district/campus professional learning and teacher classroom preparation/workdays. Schedule (insert link)

September 1: Workday

October 17: District Professional Learning

January 2: Exchange Day #1
- All professional staff must have completed at least 6 CPE Exchange Day requirements (6 in content, 6 in instructional technology, and 6 in choice) outside of the contract day (summer, evenings, weekends, and/or holidays) by December 4, 2023. Paraprofessional and auxiliary staff should discuss Exchange Day parameters with their supervisor(s).
- Since January 2nd is a paid contract day, eligible employees not completing at least 6 of the required 18 hours of professional learning and/or not appropriately entering the hours into Eduphoria! Strive 10 workdays prior to the Exchange Day will be docked state personal leave or, if no personal leave is available, salary.

May 24: Workday (Early Release)
### Exchange Day Guidelines for Teachers 2023-2024

#### What are Exchange Days?
The Exchange Day Program provides employees on 187-207-day work contract opportunities to pursue professional learning in exchange for 3, paid workdays during the school year. For the 2023-2024 school year, these days are January 2nd, February 19th, and April 1st. Each of these days is provided in exchange for 6 hours of non-contract time professional learning totaling 18 hours.

#### Why does BISD have an Exchange Day Program?
High-performing schools understand the relationship between effective teachers and high student achievement striving to create a culture valuing teacher learning and growth by making quality professional learning an essential component of improvement plans. Quality professional learning exhibits the following characteristics:
- focuses on teachers as central to student learning
- focuses on individual, collegial, and organizational improvement
- is results-driven and job-embedded
- is curriculum-centered and standards-based
- reflects best available research and practice in teaching, learning, and leadership
- enables teachers to develop further expertise in subject content, teaching strategies, uses of technologies, and other essential elements that support high standards of teaching
- is evaluated based on its impact on teacher effectiveness and student learning
- focuses on developing teachers’ capacity in one or more of the domains under T-TESS
  - Domain 1: Planning
  - Domain 2: Instruction
  - Domain 3: Learning Environment
  - Domain 4: Professional Practices and Responsibilities

Research emphasizes the central role of content knowledge and pedagogical expertise in student achievement, professional learning should be in the areas of curriculum and instruction. In cases where a teacher may have a dual teaching assignment of both core content and enrichment courses (e.g., science and coaching), Exchange Day credits should reflect no fewer than 6 hours in the assigned content area and 6 hours in instructional technology. The remaining 6 hours may be in other categories relevant to the employee’s job assignment.

#### When do I earn credits for Exchange Days?
Eligible employees may accumulate 18 hours of professional learning credit for use as Exchange Days during any non-contract time. Exchange Day credits may be earned from activities related to job assignments such as attendance at:
- trainings and workshops
- conferences
- guided curriculum writing and planning
- pre-approved book studies
- graduate-level courses
- textbook adoption committees

#### Where can I find Exchange Day opportunities?
Exchange Day credit should come from a TEA-approved provider.
- Attend Boerne U
- Confer with your principal/supervisor
- Search in-district professional learning sessions in Eduphoria!
- Search the ESC-20 Professional development catalog, [Connect 20](#)
- Consult with the content area/program area coordinator/director

#### Who is required to participate in Exchange Days?
Exchange Days are required of all employees on a 187-207-day work contract. This includes:
- Teachers
- Instructional Coaches
- Interventionists
- Librarians
- Counselors
- Specialists
- Therapeutic/Evaluation Staff
- ARD Facilitators
- Nurses

If you are unsure if you qualify for Exchange Days, please contact your supervisor.

Paraprofessional and Auxiliary employees should see the guidelines provided by BISD Human Resources.
How do I ensure my Exchange Day hours are approved?
The Exchange Day credit process includes both acquiring the training and appropriately requesting credit in Eduphoria! Strive. To qualify as Exchange Day credit, the employee must ensure the following criteria are met:

1. The employee, when possible, receives prior approval from the principal and ensures the professional learning meets the criteria for Exchange Day credit.
2. The employee earns 18 hours of professional learning for Exchange Days and ensures the sessions are reflected in their Eduphoria! Strive Portfolio as “approved” by 10 working days prior to the Exchange Day.
3. The employee ensures there is appropriate documentation of attendance at professional learning, e.g., an official certificate of attendance/transcript for outside-of-district professional learning.
4. The employee tracks Exchange Day credits by checking their Eduphoria! Strive portfolio.

1 **Deadlines for entering Exchange Day Credit Requests:**

   December 4, 2023 for January 2, 2024
   February 5, 2024 for February 19, 2024
   March 8, 2024 for April 1, 2024

Criteria for Exchange Days:
Professional learning sessions approved for Exchange Day credit may vary depending on Campus Improvement Plan (CIP) and District Improvement Plan (DIP) goals. Principals/Supervisors reserve the right to direct professional learning toward campus/district initiatives. The Professional Learning Advisory Committee along with the Teaching and Learning Department determines criteria for Exchange Days. For 2022-2023, Exchange Day credits must come from the following categories:

- 6 hours in assigned content area
- 6 hours in implementation of instructional technology*
- 6 hours choice categories related to the employee’s job assignment

*Therapeutic/Evaluation Staff, ARD Facilitators, Counselors, and Nurses may substitute 6 hours of assignment-based professional learning for instructional technology hours.

**Exchange Day Credit MUST:**

1. be received outside of contract school hours (e.g., before or after school, weekends, holidays, and summer vacation) from a TEA-approved provider.
2. be data-driven, aligned with the campus/district improvement plan.
3. be related to the current employee assignment.
4. aligned to curriculum standards (TEKS), including technology-related professional learning.
5. be related to a domain of T-TESS or other district-approved employee evaluation tool.

**Exchange Day Credit MAY:**

6. be an approved professional learning session where the registration is paid for by the district provided the employee is not compensated by the district or the entity providing the session for their attendance.
7. be compliance professional learning required as part of the job assignment for up to a maximum of 6 hours, provided the training was received outside of the school day.

**Exchange Day Credit WILL NOT be awarded if:**

8. the training is required, annual compliance training required by the state and/or district that is intended to be completed during contract time.
9. the training is a repetition of a course for which the employee has received prior credit.
10. attendance at professional learning results in monetary compensation to the employee and/or it is not associated with their job assignment.
11. the professional learning occurs during a contracted workday, even if a personal day is used.
12. it is for attendance at a meeting, including faculty or department meetings, district-level meetings, etc.
13. appropriate documentation of attendance is not provided.

Are there any penalties for not completing the Exchange Day process?
Since January 2nd, February 19th, and April 1st are paid contract days, teachers not completing the 18 hours of professional learning and/or not appropriately entering the hours into Eduphoria! Strive before the Exchange Day will be docked state personal leave or, if no personal leave is available, salary.
